

FIELD & TRIAL LAMB & RICE

DESCRIPTION

Skinner's Field & Trial Lamb and Rice is a complete dog food, specially developed and formulated to support active dogs who are regularly working at a moderate activity intensity. Skinner's Field & Trial Lamb and Rice has been carefully developed to include a protein level of 20% and a fat level of 12% to support the energetic requirements of a range of active dogs, such as working gundogs, agility dogs and active pet dogs. With protein being provided from digestible, free range lamb, to support muscle integrity and development, and fat to support moderate performance output, Skinner's Field & Trial Lamb and Rice is an ideal choice for a range of dogs.

These factors, along with rice supplying digestible carbohydrate as an energy source, means that Skinner's Field & Trial Lamb and Rice constitutes a diet to support the day-to-day requirements of active dogs

PREPARATION & FEEDING

It can be fed straight from the bag or, if your dog prefers, moistened a few minutes before serving with a small amount of tepid water. Please refer to our feeding guide for the amount most suitable for your dog. Nutritional requirements of dogs can vary according to their activity level, gender, age and breed

INGREDIENTS & ADDITIVES

Brown rice (40%) Lamb meat meal (25%) Barley–Chicken fat–Whole linseed–Lucerne–Vitamins–Minerals and trace elements–Culinary herb mix

ADDITIVES

Nutritional additives per kg:

Vitamin A 13,000 iu Vitamin D3 2,000 iu Vitamin E (as alpha-tocopherol acetate) 310 iu
