

I offer the following services for Cats:

Pop in Service – Unlike dogs, cats are so much happier being left in their own environment and seldom like to be moved out of their comfort zone. This is why I offer a pop in service for your feline friends.

I will call at your home, feed and water your cats, spend some time petting them and ensuring their well being. Clean out litter trays if required and clean their dishes.

Other pets catered for – This list is endless, I understand that people have other pets than just cats and dogs, so I offer to give those pets the same attention and care that you would give them yourself.

Whatever the pet you can rest assured the best care at all times.
