

# FIELD & TRIAL WORKING 23

## DESCRIPTION

Skinner's Working 23 is a complete dog food, specially developed and formulated to support dogs with a moderate to high activity level. With a protein level of 23% and a fat level of 10%, Working 23 supports the day-to-day energetic requirements for working and active dogs of all breeds and is a firm favourite with many working dog handlers.

With a balance of digestible carbohydrates, Working 23 provides a diet to support those animals needing a nutritious fuel to support moderate to high activity levels such as working gundogs, agility dogs or active pets.

## PREPARATION & FEEDING

It can be fed straight from the bag or, if your dog prefers, moistened a few minutes before serving with a small amount of tepid water.

Please refer to our feeding guide for the amount most suitable for your dog.

Nutritional requirements of dogs can vary according to their activity level, gender, age and breed.

## INGREDIENTS & ADDITIVES
